# LETTER FROM THE CHAIRS

## Welcome, everyone, to CONsole Room 2026!

Our 13th year... whatever your feelings on this momentous number, I definitely consider it lucky, because I've had 13 years to get to know all of you. 13 years of excellence, of laughter, of memories, of great fun, of all of you showing us your very best selves. I like to think that's the Doctor's influence. The Doctor just pulls all of our inner goodness to the surface, until we're just radiating happiness, and that's how I feel every year at this time. Thanks to the Doctor, I get to spend a weekend with a whole bunch of people who are glowing like little suns in the galaxy that is CONsole Room. Shine on, all you happy Doctor Who fans and I hope, like me, you'll think of 13 as a lucky number from now on!

**Jason Tucker**

**CONsole Room Founder and Co-Chair**

I have had the privilege of travelling with you all on this journey of wonder and discovery for a little while now. As the Doctor travels through time and space so we travel through our lives with limitless possibilities. The community found here at CONsole Room is a source of joy and companionship. It is an example of togetherness that I have no words to express properly. So I leave you with what the Doctor once said; "There must be no regrets, no tears, no anxieties. Just go forward in all your beliefs and prove to me that I am not mistaken in mine.

**Anton Petersen**
